

BUILDING BETTER HOMES

Easy English book - 18 February 2021

How to use this book

- This document is by Life Without Barriers in Easy English.
- We use pictures to explain some ideas.

- This book explains how Life Without Barriers is helping people have better homes.

LIFE WITHOUT BARRIERS

- Life Without Barriers helps lots of people to live life the way they like.

- We support lots of people in their home.

We believe you should have choice to have a home that works for you and your disability.

- There is not enough houses that meet the needs of people with disability.

This is a big problem.

- Everyone deserves to live in home that is
 - ✓ safe
 - ✓ secure
 - ✓ meets their needs

- We want to make sure there are enough safe houses for everyone.

- One way to make more good houses for everyone is better rules for people who build houses.

- There are special rules people must follow when they build a new house.

These rules are called the **National Building Code**.

- The Australian Government makes these rules.

- Soon people from the Government will be meeting to talk about changing these rules.

- We want them to change these rules so new houses have to be built in a way that is better for people with disability.

- If new houses are made safer for people with disability, there will be more new houses to choose from.

- It is important that people with disability have the same housing choices as other people.

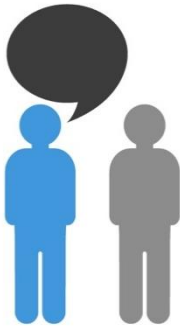

- To encourage the Government to change the rules, we are signing a **petition**.

- A petition is a special document that asks the Government to change something.

It is signed by lots of different people to tell the Government that something is important.

- You can also sign the petition if you want the rules to change.

- To sign the petition, talk to your support network.
